

RING MEASURING TOOL

For accuracy, ensure the PDF is printed in its original scale at 100%. Use the ruler below to check the scale.

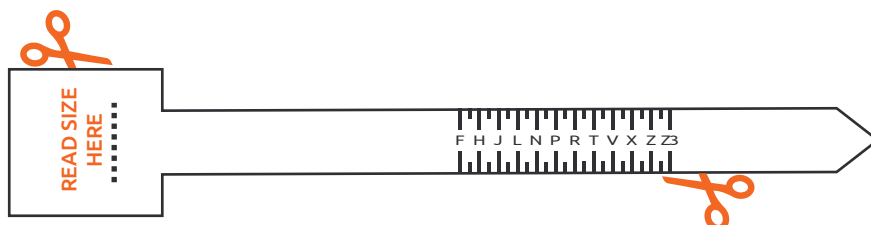

HOW TO USE THIS TOOL?

Use the circles on the right for your existing rings, place the ring on top of each circle until you find a perfect match.

OR

You can also use the sizing tool below to help determine your ring size. Carefully cut out the tool, cut a slit along the dotted line, then slip the pointed end through the slit and place around your finger. Be careful not to wrap the paper too tight. It should be a comfortable, snug fit.

The tool below is using UK ring sizes.
